Task Overview

Submissions

Evaluation Report

COMPETENCIES

405.4.1 : Edits Corporate Communications

The learner edits corporate communications for proper grammar and punctuation.

405.4.2 : Evaluates Impact of Business Etiquette

The learner evaluates the impact of business etiquette and communication on digital environments.

405.4.3 : Creates Technical Artifacts

The learner creates technical artifacts that are persuasive, informational, and research based.

SCENARIO

You have recently been hired to work in the information technology field. Your new manager has asked you to write a blog post describing a technological product, practice, or process that at least one group of employees will soon implement.

After your manager approves the blog post, you will create a multimedia presentation in Task 2 that discusses the content in the blog post.

REQUIREMENTS

Your submission must represent your original work and understanding of the course material. Most performance assessment submissions are automatically scanned through the WGU similarity checker. Students are strongly encouraged to wait for the similarity report to generate after uploading their work and then review it to ensure Academic Authenticity guidelines are met before submitting the file for evaluation. See [Understanding Similarity Reports](#) for more information.

Grammarly Note:

Professional Communication will be automatically assessed through Grammarly for Education in most performance assessments before a student submits work for evaluation. Students are strongly encouraged to review the Grammarly for Education feedback prior to submitting work for evaluation, as the overall submission will not pass without this aspect passing. See [Use Grammarly for Education Effectively](#) for more

information.

Microsoft Files Note:

Write your paper in Microsoft Word (.doc or .docx) unless another Microsoft product, or pdf, is specified in the task directions. Tasks may not be submitted as cloud links, such as links to Google Docs, Google Slides, OneDrive, etc. All supporting documentation, such as screenshots and proof of experience, should be collected in a pdf file and submitted separately from the main file. For more information, please see [Computer System and Technology Requirements](#).

You must use the rubric to direct the creation of your submission because it provides detailed criteria that will be used to evaluate your work. Each requirement below may be evaluated by more than one rubric aspect. The rubric aspect titles may contain hyperlinks to relevant portions of the course.

- A. Create an explainer blog post, as defined in the learning resource, that discusses a technological product, practice, or process that your company will soon implement. This blog post should be a maximum of 1,000 words long and must include the following:
 1. a thorough explanation of your chosen technological product, practice, or process based on your research from **three** distinct sources
 2. a compelling argument of how the technological product, practice, or process will benefit the employees or company when it is implemented
- B. Identify and define the employee group (the audience) for the blog post.
 1. Explain how this audience influenced your choices for the document's etiquette, including word choice and tone.

Note: Consult the section in the learning resource for information on business etiquette.
- C. Acknowledge sources, using in-text citations and references, for content that is quoted, paraphrased, or summarized.
- D. Demonstrate professional communication in the content and presentation of your submission.

File Restrictions

File name may contain only letters, numbers, spaces, and these symbols: ! - _ . * ' ()

File size limit: 200 MB

File types allowed: doc, docx, rtf, xls, xlsx, ppt, pptx, odt, pdf, csv, txt, qt, mov, mpg, avi, mp3, wav, mp4, wma, flv, asf, mpeg, wmv, m4v, svg, tif, tiff, jpeg, jpg, gif, png, zip, rar, tar, 7z

RUBRIC

A: BLOG POST

NOT EVIDENT

An explainer blog post is not provided.

APPROACHING COMPETENCE

COMPETENT

The explainer blog post is not more than 1,000 words and dis-

The explainer blog post is more than 1,000 words, or it does not discuss a technological product, practice, or process for company implementation.

cusses a technological product, practice, or process for company implementation.

A1:EXPLANATION

NOT EVIDENT

The blog post does not provide an explanation of the candidate's chosen technological product, practice, or process.

APPROACHING COMPETENCE

The blog post does not accurately explain the chosen technological product, practice, or process or does not provide 3 research sources.

COMPETENT

The blog post accurately explains the chosen technological product, practice, or process and provides 3 research sources as the basis for that explanation.

A2:COMPELLING ARGUMENT

NOT EVIDENT

The blog post does not provide an argument of how the technological product, practice, or process could benefit the employees or company.

APPROACHING COMPETENCE

The blog post provides an argument of how the technological product, practice, or process could benefit the employees or company that is not compelling or is irrelevant.

COMPETENT

The blog post provides a compelling argument of how the technological product, practice, or process could benefit the employees or company.

B:EMPLOYEE GROUP

NOT EVIDENT

An employee group is not identified and defined.

APPROACHING COMPETENCE

The employee group is identified, but the group is either not defined or is not appropriate for the chosen technological product, practice, or process.

COMPETENT

The employee group is identified and defined and is appropriate for the chosen technological product, practice, or process.

B1:ANALYZING BUSINESS ETIQUETTE

NOT EVIDENT

An explanation of how the audience for the blog post affected the document's word choice and tone is not provided.

APPROACHING COMPETENCE

The explanation is missing either how the audience affected word choice or how the audience affects tone.

COMPETENT

The explanation accurately discusses how the audience for the blog post affected the document's word choice and tone.

C:SOURCES

NOT EVIDENT

The submission does not include both in-text citations and a reference list for sources that are quoted, paraphrased, or summarized.

APPROACHING COMPETENCE

The submission includes in-text citations for sources that are quoted, paraphrased, or summarized and a reference list; however, the citations or reference list is incomplete or inaccurate.

COMPETENT

The submission includes in-text citations for sources that are properly quoted, paraphrased, or summarized and a reference list that accurately identifies the author, date, title, and source location as available.

D:PROFESSIONAL COMMUNICATION**NOT EVIDENT**

This submission includes pervasive errors in professional communication related to grammar, sentence fluency, contextual spelling, or punctuation, negatively impacting the professional quality and clarity of the writing. Specific errors have been identified by Grammarly for Education under the Correctness category.

APPROACHING COMPETENCE

This submission includes substantial errors in professional communication related to grammar, sentence fluency, contextual spelling, or punctuation. Specific errors have been identified by Grammarly for Education under the Correctness category.

COMPETENT

This submission includes satisfactory use of grammar, sentence fluency, contextual spelling, and punctuation, which promote accurate interpretation and understanding.
